

## CHG - Contact Height Gauge

CHG-D

CHG-A

Measuring

CHG - Contact Height Gauge is specifically designed for measuring the contact height of aerosol cans with 25.4mm (1") aperture. Adopted with Mitutoyo indicator, available for analog model (CHG-A) and digital model (CHG-D).

Reference standards: EN 14850, EN 14847, EN 15006

### Technical specifications:

- Measure range: 3 - 5 mm
- Resolution: 0.01 mm
- Sample range: Tinplate or aluminum aerosol cans with 25.4mm (1") aperture
- Overall size: 60 x 57 x 97 mm
- Weight: 0.5 kg

Calibration ring (Included)
