

RDMG-1 Reform Depth Measurement Gauge

Equipped with zeroization base

Measuring

RDMG-1 Reform Depth Measurement Gauge is a digital gauge for measuring reform depth of ROPP Closure. For fast and easy measurement, the zeroization base is equipped.

Technical specifications:

Measuring range	: 0-10 mm
Resolution	: 0.01 mm
Accuracy	: ± 0.01 mm

TDG-1 Thread Depth Gauge

Equipped with zeroization base

Measuring

TDG-1 Thread Depth Gauge is a digital gauge for measuring thread depth of ROPP Closure. For fast and easy measurement, the zeroization base is equipped.

Technical specifications:

Measuring range	: 0-10 mm
Resolution	: 0.01 mm
Accuracy	: ± 0.01 mm
